

WEIDMANN

Memorandum

Date	22.03.2018
From	Franziska Tschudi Sauber, Daniel Tschudi

Wicor Holding AG acquires Optocon AG

Dear Business Partner

The Wicor Holding AG (Weidmann International Corporation) is pleased to announce its recent acquisition of Optocon AG, a leading producer of fiber optic technology and signal conditioners for temperature measurement.

Optocon has a more than 20 years history of providing innovative and technologically advanced solutions for a wide variety of industries. Weidmann has been at the heart of the global transformer industry for over 140 years, supplying a comprehensive range of specialized products, materials and services. In recent years, Weidmann embarked on an ambitious strategy to equip transformers with SmartInsulation™: embedding unique sensors directly inside the transformer. The acquisition of Optocon, as well as the redesign of the InsuLogix® T, takes us one step closer to realizing this mission.

Weidmann will continue the Optocon AG operations in Dresden, Germany, through a new legal entity: Weidmann Technologies Deutschland GmbH.

With the full backing of the Wicor Holding AG, we pursue to provide high quality, unique technical solutions and services and will enhance our product portfolio in order to even meet customer requirements in the future.

Feel free to contact us – we look forward to hearing from, and working with, you.

Yours sincerely

Franziska Tschudi Sauber
Chief Executive Officer

Dr. Daniel Tschudi
